- [Release paper](#)

The surface effect

When the sunshine or light on the surface of self adhesive glitter vinyl, it will become shining, the color is very pretty and easy to catch our eyes.

Application

It is very suitable for marking, lovely decoration, home decorating or outdoor advertising etc.

- Home decorating
- Outdoor advertising

Home decorating

Like marking, stick to the bottle, the blend bottle just become more vivid. It didn't take your place, and make the bottle become a artwork, which can make people more comfortable, even can let your environment more colorful.

Outdoor advertising

Cut the pattern on the self-adhesive vinyl, use for Christmas, birthday party and other specialty event. You can make the subject or slogan sticking on the wall. Because of the self-adhesive, it is very easy for us to use it, let the whole party more funny. If you shine a light on it, it will shine and make the atmosphere become more special. Sometimes the little material can give you the unbelievable feel. What's more, self-adhesive glitter vinyl also can be used for lots of application, such as motor, window, specialty decoration etc.

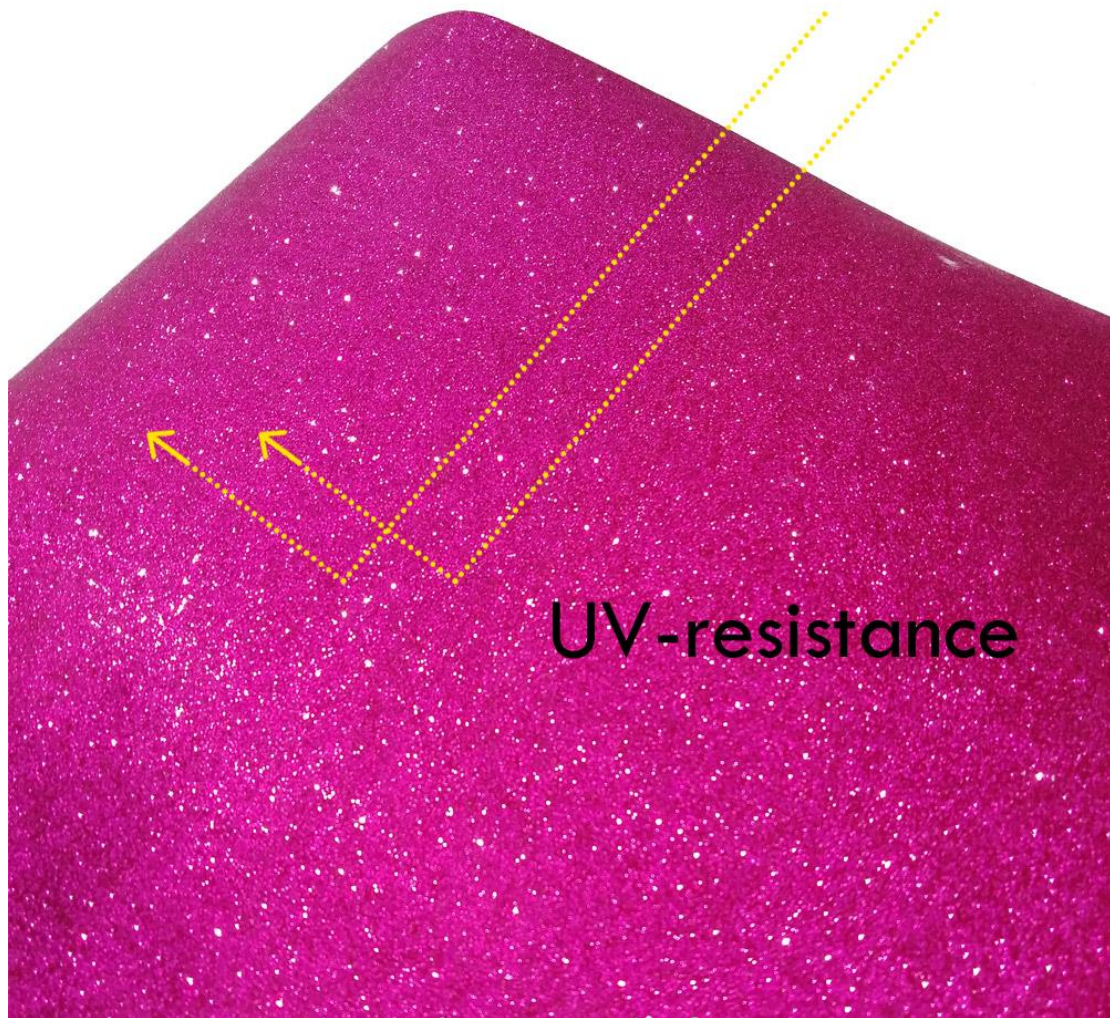

Performance

- UV-resistance
- Well-stretchable
- Glue type

UV-resistance

With the fine performance of UV-resistance, shells life up to 3 years.

Well-stretchable

When you stretch it, it will not broke.

Glue type

There have different glue for you to choose. Such as permanent glue, removable glue, or you just can tell us your requirement, because we can provide the customization services for you. What's more, if you take the material off your project, it will not leave the glue on the surface and keep clean.
